

I like the current XM Weather and Traffic channels as they are. Please HELP XM Radio to EXPAND THEIR SERVICES, not cut them down. I live in a rural area but drive into cities alot in bad weather. I NEED this as a critical PUBLIC SERVICE I cannot get other weather services where I am, so I use SATELLITE RADIO even though it is a subsription that I PAY FOR each month - gladly!

Please DO NOT DISCONTINUE THE LIVE AND VALUABLE SERVICES of XM Radio.

Thank you very much for your HELP, not restriction in this matter.

Sincerely,

Joel Goldblatt
